CAREER OBJECTIVE

I'm a Full Stack Web Developer (Fresher) skilled in React.js, Next.js, and Python(FastAPI). I enjoy building responsive web apps and understanding how frontend and backend connect. During my training, I worked on real-time projects that gave me practical experience. I'm now looking for an opportunity to contribute to a team, continue learning, and grow as a developer.

PROJECTS

- **DryMate - Organic Farming Site:** Built a website to showcase and sell organic mushroom products and manage training sessions.
  Tech: FastAPl, Next.js, Stripe, SQL

- **Gym Membership Platform:** Created a responsive gym site with subscription plans and class schedules. Integrated Stripe for secure payments.
  Tech: FastAPl, Next.js, Stripe, SQL

- **E-commerce Web App:** Developed a basic shopping site with user login, cart, and payment features.
  Tech: FastAPl, Next.js, Stripe, SQL

- **Bus Ticket Booking System:** Web app to book, cancel, and manage bus tickets with admin control.
  Tech: FastAPl, Next.js, Stripe, SQL
